“...To CATCH a Criminal Even YOU need to THINK like one...”

“...It was a truly unique experience having him present at the 2012 CLSA Japan Forum, 2011 CLSA India Forum, as well as meet our clients, global institutional investors, in Singapore, Hong Kong, and Malaysia over the past year. His presentation was one of the more memorable with very interesting and informative advice. His lively presentation style immediately engaged the audience till the very end and left many wishing for more time to speak with him. I wish him all the best for your future events and look forward to working with him again...”

- GRACE HUNG
Director of Strategic Initiatives
CLSA Asia-Pacific Markets

“...We are immensely grateful to you for sparing your valuable time to visit the academy on Feb 11th 2011 to interact with the participants of 5 days advance course on computer & internet crimes on ethical hacking. All the participants of the course have got immensely benefited from your presentation and graded it 4.97 out of 5...”

- VIPUL KUMAR
IPS, Assistant Director, Computers
National Police Academy, India

“...We take great pleasure in thanking you for a very successful workshop here at IIT Hyderabad. We received wonderful reviews from the participants and the workshop has greatly enhanced the reputation of IIT Hyderabad. We hope to collaborate with you in our future endeavor...”

- NITIN
Indian Institute of Technology (IIT), Hyderabad, India
What would you do if a criminal wiped out all the money from your bank account? What would you do if your competitor was spying on you? What would you do if somebody hacked into your computer and started controlling it? What would you do if your identity was stolen? Could the next world war possibly be a completely online cyber terrorism one? Want to know how criminals break into computers, military systems, mobile phones, ATM Machines and everything else? Want to learn how to protect yourself, your business, your kids and your family from computer criminals? If your answer to any of the above questions is of curiosity or shock, then you have come to the RIGHT PLACE! To catch a criminal, even YOU need to start thinking like one. Join us at this eye opening session on the magical world of computer hackers and see ANKIT FADIA hack into just about everything LIVE in front of your eyes! Prepare to be SHOCKED, ENTERTAINED and EDUCATED all at the same time.

Unfortunately most Internet users continue to remain oblivious to the potential risk caused by computer criminals, espionage, identity theft, privacy invasion, virus attack, and cyber terrorism. With the correct mix of technical explanations and real life case studies, this talk provides participants with REAL take home value that they can apply to their personal and work lives on a daily basis and become more secure. Plenty of real life case studies, a hands on approach, best security practices and LIVE HACKING demonstrations will be used to unravel the fascinating world of computer hacking! This talk has been a favorite across North America, South America, Europe, Africa, Asia and even Australia! Join us at this session and find out why!

**SATURARY WARNING: Keep your mobile phones switched OFF during this session, lest they be hacked!**
